WELCOME TO KILLARY FJORD SHELLFISH

Bunowen, Connemara, Ireland

Killary Fjord Shellfish is a family run shellfish business based on Killary fjord. Simon has been growing mussels here since 1989 and he is considered one of the pioneers of mussel farming all those years ago.

At Killary Fjord Shellfish we farm blue-shell mussels also known as the common mussel on longlines submerged 8 meters under water. Killary is an ideal location for growing mussels thanks to the unique combination of fresh and sea water which gives the Killary mussel a distinctive sweet flavour. It is here on the Fjord that we grow, harvest, grade, depurate and debyss the mussels in our dispatch centre for local restaurants and wholesalers in the West of Ireland. Simon and his family live on the fjord flanking the mussel farm and it is this proximity to the farm that makes their mussels clearly the freshest mussels available locally.
